IV. The Street Section, printed on green paper, contains in alphabetical sequence all streets; and list under each street description in numerical or house sequence the dwellings on that street, the occupant, telephone number if possible, and an indication of whether the home is privately owned. TUNJO-DOES HE MAKE
WISHES COME TRUE??

This is a Tunjo

It was believed by the Colombian Indians to have the power of making wishes come true. This design was taken from a **Tunjo** (the most powerful man) made of solid gold and was believed to have the double nature of spirit (with wings) and body (a scorpion). It may be seen in the Gold Museum in Bogota.

You could probably paint a picture of a **Tunjo** on a piece of plain paper, burlap or cloth, and hang it on your wall. Every morning when you rise, you could make a wish that business will get better.

Or You could be more positive and place an advertisement in the CITY DIRECTORY.

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

Any bank can give you a commercial loan.

We'll give you a piece of our mind.

When you get a loan for your business, you deserve a lot more than just a payment schedule and a hearty handshake.

You deserve start-to-finish financial planning and counsel.

And that's just what you'll get from us. Because when you come to First Bank for a loan, we research and analyze your own particular needs. We help you decide how much you need, and for how long you need it. And then we follow up to make sure that it's working for you just the way it's supposed to be.

So the next time you need money, don't just get a loan. Get a piece of our mind.

You'll be surprised how much a little gray matter can help stretch the green matter you borrow for your business.

MONARCH LIFE INSURANCE COMPANY

Monarch Capital's Principal Subsidiary Provides Lifelong Financial Security Through

HEALTHSPAN®

Many hazards threaten your income—but none is more destructive than disability, not even death or old age. HEALTHSPAN, a new Monarch service, was developed to minimize the income-shattering effects of disability. HEALTHSPAN measures the extent of each personal and business insurance need, sets a priority on each, then constructs a program of income replacement insurance to provide the best overall coverage. Our HEALTHSPAN contracts are so flexible and contain so many built-in safeguards that they can be altered to meet changes in family and business circumstances, no matter when they occur. Loss of insurability, which can undermine plans for income replacement protection—and inflation, which can cripple the value of coverage—have been eliminated as threats under the HEALTHSPAN system. HEALTHSPAN does a total job—in sickness and in health.

LIFESPAN®

LIFESPAN, Monarch's new development in the complex world of financial planning, is a fully computerized system—and is perhaps the most advanced system of its kind for creating programs of Lifelong Financial Security for income-earners and their families. It protects against *all three* of the great income-destroyers: disability, death and old age.

LIFESPAN constructs programs not only for present needs but also for those of the unforseeable future. The latter is made possible by the extreme flexibility of our policy contracts. Our LIFESPAN system is so responsive to change that not even loss of insurability and the erosive effects of inflation can disrupt the attainment of Lifelong Financial Security. This goal has been little more than a hope for most American families. Now it can be a reality.

Monarch Life and Springfield Life Insurance Company, a Monarch affiliate, span the entire nation with a huge network of full-time agents, independent agents and brokers. Over 5,700 representatives daily go about the job of providing Lifelong Financial Security for hundreds of thousands of income-earners and their families.

WANT TO SELL NEW-COMERS?

To a new-comer the city directory is the new home town. It is the only complete guide to everything and everybody in town. Who is who?, what is where?, which is closer?, who sells what?, are just some of the hundreds of questions for which new-comers look to the city directory for answers.

Often they have explored their new home town in advance by using the city directory in a library where they were leaving.

Your ad message in the city directory reaches them first.

TUNJO-DOES HE MAKE
WISHES COME TRUE??

This is a Tunjo

It was believed by the Colombian Indians to have the power of making wishes come true. This design was taken from a **Tunjo** (the most powerful man) made of solid gold and was believed to have the double nature of spirit (with wings) and body (a scorpion). It may be seen in the Gold Museum in Bogota.

You could probably paint a picture of a **Tunjo** on a piece of plain paper, burlap or cloth, and hang it on your wall. Every morning when you rise, you could make a wish that business will get better.

Or You could be more positive and place an advertisement in the **CITY DIRECTORY.**

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

SALES SERVICE PARTS

Any bank can give you a commercial loan.

We'll give you a piece of our mind.

When you get a loan for your business, you deserve a lot more than just a payment schedule and a hearty handshake.

You deserve start-to-finish financial planning and counsel.

And that's just what you'll get from us. Because when you come to First Bank for a loan, we research and analyze your own particular needs. We help you decide how much you need, and for how long you need it. And then we follow up to make sure that it's working for you just the way it's supposed to be.

So the next time you need money, don't just get a loan. Get a piece of our mind.

You'll be surprised how much a little gray matter can help stretch the green matter you borrow for your business.
